- This is really hard to decide on.

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

It should help, especially with new and improved sports/concert facilities. However, Calgary is culturally well-served already.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

They would and must be set up for as much continued use as possible. However, not useful if we can't pay for them or pay to maintain them.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

I doubt this would help unless some
ways carbon capture, wind or solar
plan also comes out of this.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

This is a big question and we certainly
need to know approximate percentages of
federal support.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

This is really tough question now. If my
taxes are used to get new and improved buildings
at a subsidized rate. Additionally, the Olympics
is not just about money, but at the same time, debt and
increased building are not good.

5 Community 5 Venues and Facilities 5 Environment 1 Economy 1 Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

HINDER! Whether it hinders or helps should NOT be a consideration for a "party" city, as a city, province or country, CANNOT AFFORD!!

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

If this city & council could figure out how to do some removal would be a bonus & budget for priorities. A two week CORRUPT, EXPENSIVE party to prioritize upgrades etc. to infrastructure IS NOT A PRIORITY

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

WHO CARES - A multi-billion dollar boondoggle
can only hinder big stone, env. environment,
consumption & economy because of COSTS

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

HINDER! See all of above. Citizens taxpayers
have had enough of increased TAXES from every
level of government in the country.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

NO! See Above To expect to host a CORRUPT,
FAKE, & WEALTHY IOC, as well as City Council &
many more at all - for a 2 week party is disgusting
without merit!

I believe it would raise the profile of the city but do not feel that balances with the negative economic impact

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

I do not feel the proposed upgrades or new venues are warranted by the cost. Why not just use our dollars to upgrade existing facilities instead of the full program described by the bid?

7

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Hinder. we can not afford to further burden taxpayers.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Defenately NOT. We currently can't afford snow removal, can't fund a green line or build a c-train to airport - how can we afford an olympic bid which will not help the average calgarian

What's important to you?

These questions will help us understand what's important to you, and your views on whether hosting the Games would help or hinder Calgary's future. This part is a deeper dive into our five topics of conversation:

Community

Venues
and facilities

Environment

Economy

Costs

These topics are high-level categories of Calgarians' comments, concerns and interests we heard in the 2018 Citizen Perspectives Survey results released in August.

Q1: When it comes to Calgary hosting the Games, what is important to you?

Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

3 Community 4 Venues and Facilities 5 Environment 2 Economy 1 Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

Neither or both. I think Calgary has strong cultural roots as it is, partly due to the '88 Olympics. I think hosting a 2nd Olympics will boost presence on the world stage at the risk of affordability + QOL of the average Calgarian.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Help. I see an opportunity to work w the Flames to build that new arena. My family has enjoyed the rewards of the 1st Olympics venues.

Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

___ Community ___ Venues and Facilities ___ Environment ___ Economy ___ Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

Hinder. Better development at far cheaper cost by developing communities

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Improving transit, housing & community facility upgrades as to Olympics as a contingent to have them is reprehensible

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Hinder. Parks don't want sharing skis. Heavens of concerns.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Economic impact is huge. The money from all 3 levels of govt. comes from my pocket for 3000 athletes + all the rest of interested parties. Not for my benefit or my descendants.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

The cost ~~over runs~~ are very likely. Toynoke cost 25 Billion. You are saddling my descendants with huge debt, probably putting Calgary + Alberta into bankruptcy for self promotion by a small group.

Who are you?

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

Also, employment/volunteer for youth.
Help. I like the idea of more affordable housing.
One reservation I have though is the risk
to volunteers being drawn away from existing programs.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Help - because we'd be reusing. Though retrofits
can often have unexpected costs.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Neutral - I don't see the Olympics benefiting our environmental future but ~~so long~~ ~~as~~ believe they will not hinder. Folk Fest has great initi.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Help. I saw a chart (unrelated) a few years ago showing our economy since the 1970's & I believe that 1988 absolutely helped our economy.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Yes/No - I'd still like to understand if there are additional, indirect costs to the \$5.2 billion for infrastructure like roads, etc.

These topics are high-level categories of Calgarians' comments, concerns and interests we heard in the 2018 Citizen Perspectives Survey results released in August.

Q1: When it comes to Calgary hosting the Games, what is important to you?

Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

1 Community 3 Venues and Facilities 3 Environment 2 Economy 1 Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

Could likely help if the plebiscite indicates strong support from citizens. If voting support is questionable (eg 55%) then the bid process & games development could be source of conflict.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

They would likely help foster sport development in Calgary & put (keep) Calgary on the map in this area. Not sure I understand why a 'new' Saddledome is not part of plan.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Neutral.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Would likely help. Probably undoubtedly in particular if community was solidly behind them.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

I'm not sure if this is my biggest concern. Reports & history of cost overruns & too requirements have tainted the games & makes me leary of taking the risk.

Who are you?

___ Community ___ Venues and Facilities ___ Environment ___ Economy X Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

It will, at best, not affect Calgary's future, but probably would have a negative affect due to the high levels of debt incurred.

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

I believe that the upgrades & new venues will be implemented as needed & reasonably afforded when as individually planned & payed for by users.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Clearly such games would have a negative environmental impact as temporary facilities are provided for over an estimated million short term visitors.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

I believe that Calgary & its citizens cannot afford to even bid on the 2026 Olympics in the light of current spending priorities & income potentials.

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

I don't think there are any cultural or social impacts. Games will be an embarrassment to Calgary if we upgrade "ancient" venues

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Hinder Calgary's future as we need a new arena and an LRT to the airport. Focus on infrastructure Calgary needs and NOT on a 2 week party for elites!

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Negative impact on environment.

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Negative Economic impact to current and future taxpayers. The Games will go over budget. It does have.

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

Absolutely NOT! A 2 week party is worthless → Should use money on needed infrastructure and delivery of day to day services.

What's important to you?

These questions will help us understand what's important to you, and your views on whether hosting the Games would help or hinder Calgary's future. This part is a deeper dive into our five topics of conversation:

Community

Venues
and facilities

Environment

Economy

Costs

These topics are high-level categories of Calgarians' comments, concerns and interests we heard in the 2018 Citizen Perspectives Survey results released in August.

Q1: When it comes to Calgary hosting the Games, what is important to you?

Please rank on a scale of 1-5 how important you feel each topic should be in The City's consideration of whether or not to submit a bid (5 is 'not important' and 1 is 'very important'):

3 Community 5 Venues and Facilities 5 Environment 2 Economy 1 Cost

Q2. COMMUNITY: Do you think the potential social and cultural impacts of the Games would help or hinder Calgary's future? Why or why not?

Hinder → the high costs will take away from future potential of other events in the city

Q3. VENUES AND FACILITIES: Do you think the proposed upgraded and new venues and facilities from the Games would help or hinder Calgary's future? Why or why not?

Hinder. Spend the money on the failing city's 10yr plan to end homelessness instead of more affordable housing.

Q4. ENVIRONMENT: Do you think the potential environmental impacts from the Games would help or hinder Calgary's future? Why or why not?

Non issue

Q5. ECONOMY: Do you think the potential economic impact of the Games would help or hinder Calgary's future? Why or why not?

Hinder. Calgary will be saddled with potentially massive debt. The gamble on the Olympic are not worth the risks

Q6. COST: Do you view the long-term impacts of the Games as being worth the cost? Why or why not?

definitely not worth the cost. No Olympics have been on budget in the past 40yrs. Spend the council's time on the economy and fixing local issues first.
